GOLD MINING IN THE MYSORE TERRITORY.

PRELIMINARY NOTICE.

MESSRS. ARBUTHNOT & Co., have been authorised by the Concessionaires [from the Government of Mysore] of certain land in the well known gold-producing district of Kolar and which is known to contain auriferous quarts in very large quantities, to form a Company for the working of a square mile, or 640 acres, of such land which they are prepared to allot on certain conditions. The land referred to is close to the block known as the "Ooregum Block" and the same reefs as are now being worked by the Ooregum Company run through it. The Concessionaires have agreed to transfer all their right, title, and interest in the 640 acres referred to for 5 lakhs of Rupees, half to be paid in cash and half in fully paid up shares. The title to the land is, Messrs. Barclay and Morgan advise, unexceptionable, and the terms asked are only slightly higher than those that have been paid by companies in England to work portions of the Ooregum Block. No further payment of any kind, beyond the five lakhs of Rupees is to be made to any one.
The proposal is to form a company with a capital of 10 lakhs of Rupees, to acquire and work a square mile of mining land. It is believed that a Company with this capital ought to be able to develop all the resources of the land handed over.
The shares are to be of the value of Ten Rupees each, and the name of the Company, The MADRAS GOLD MINING COMPANY (LIMITED). The Company's Registered Office will be at Madras, but it is not unlikely that a considerable portion of its capital will be raised in London where similar enterprises are meeting with great favour. The Company will have a Madras Board of Directors, and it is proposed that Messrs Arbuthnot and Co. should be the Secretaries and Treasurers.
This preliminary notice is issued in order that it may be ascertained with what degree of favour a Company of the kind is likely to meet with at the hands of the Indian public, and so that it may be decided how many of the 70,000 shares still available for the public [5,000 having already been privately taken up] should be reserved for local investors and how many for allotment in London.
Messrs. Arbuthnot and Co. will be glad to receive applications for shares in the annexed form and up to 31st May, unless before that date the shares are fully applied for; and should the Company not be formed, the deposit of One Rupee per share will be returned without any deductions.
Madras, 10th April 1880.

FORM OF APPLICATION FOR SHARES.

To Messrs. Arbuthnot & Co., Madras
On behalf of the Madras Gold Mining Co (Limited).
Having paid to the Bankers [yourselves] of the above Company the sum of Rupees..... being a deposit of One Rupee per any ..... shares of Rupees Ten each in the said Company, I request you will allot me that number, and I hereby agree to accept the said shares or any smaller number that may be allotted to me, and to become a Member of the Company in respect thereof; and I hereby authorise you to place my name upon the Register of Members for the shares so allotted.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, APRIL 22, 1880.

REUTER'S telegrams of yesterday's date report no changes in the quotations for Consols or Indian Government Securities. Money apparently keeps very easy and the market rate of discount is now quoted at ¼ per cent. below the Bank rate. In the London General Produce markets Coffee and Cocoanut Oil were unchanged at previous quotations. Linseed was quiet, Calcutta to arrive was quoted at 51s. per qr., a decline of 6d. per qr., and Wheat was dull and rather easier.

The quotations for metals were the same as those last given—viz., Copper Tiles £76 and Braziers £72 per ton. Yellow metal 6d. per lb. and Hard Spelter £14 10s. per ton.

The market for Piece Goods in Manchester yesterday was dull, as also was that for Cotton in Liverpool, where the day's sales only amounted to 6,000 bales, of which 400 bales were Surats. Prices for Mid. Uplands and Bombay descriptions of Cotton were 1-16d. per lb. lower. But Bengals, Cocconadas and Tinnivellies were quoted at previous rates: G. F. Westerns were ⅛d. per lb. lower, arrivals were reported to be dull, and L. M. Americans for delivery this month were quoted 1-16d. per lb. and for August and September 1-32d. per lb. lower, but "Good" Broach nothing below "Fully Good Fair." March shipments via Canal was quoted at 6⅜d per lb. against the previous day's quotation of 6⅜d. per lb. for "Good" with the "Good" clause, March-April shipment.

The New York telegrams of yesterday quote Mid. Uplands at 11 15-16 cents per lb., a decline of 1-16th, but Futures are quoted at 12, against 11·99 cents on Tuesday. The Receipts at the U. S ports compare with those of the past two seasons as follows, viz:—

	1880.	1879.	1878.
Wednesday's Receipts	6,000	5,000	5,000
Five days "	25,000	25 000	25,000
Total since 1st Sept.....	4,584,800	4,270,000	4,042,000

At the usual weekly Biddings for Council Drafts in London yesterday Rs. 23 80,000 were allotted to Calcutta at an average rate of 1s. 7·88d., and Rs. 16,20,000 to Bombay at an average of 1s. 7·89d. The minimum rate was 1s. 7⅞d, at which 25 per cent. was allotted, Forty lacs are again to be offered next week.

Bar Silver declined 1-16d. per oz. in London yesterday, being now quoted at 51 15-16d. per oz. No shipments have been advised as yet this week, the only shipment of specie being £10,000 of Gold for this port.

STERLING EXCHANGE has been weaker again to-day, and this, together with a fur her decline in the price of Cotton, has brought forward an increased amount of Mercantile Paper on the market, and fair amount of business has been done at 1-32d. per Rupee below our yesterday's quotations. The market in Calcutta is still influenced a good deal by ours and to day's quotations are the same as ours, but it is expected that China may soon become an important factor in supporting rates of Exchange in India. Private advices by telegraph are, that recent Silver shipments from Europe are for India *and* China, and this may prove of some importance, as hitherto China has been able to draw the necessary supplies of the metal from America and to ship any surplus to India—whereas now it appears that England and India may be called upon to supply the demand or at all events to supplement America in doing so. Our closing quotations are—

Bank Bills, on demand	1s. 7⅞d.	per Re.
Do. 3 months' sight	1s. 8d.	"
Credits, 4 do.	...1s. 8⅛d.	"
Documents, 3 do.	...1s 8·32 to 1s. 8 3-16d.	"
France 2 do.	2·12½.	"

On Calcutta rates are unchanged at Rs. 99 15-16 for demand, Rs. 99½ for 60 days' sight draft.

GOVERNMENT PAPER.—Rates are steady at Rs. 95½ for Fours and Rs. 102 5-16 for Fours-and-a-half.

SHARES.—The market generally is steady with a fair demand for Bank of Bombays at Rs. 693½. For Spinning and Weaving Companies scrip there is a fair enquiry. An advance of Rs. 5 per share is reported in Bombay United, Rs. 25 in Hindustan, and Rs. 15 in Khatow Mucconjees. A decline of Rs. 5 is reported in Dhurumseys, Rs. 10 in Manockjee Petits, Rs. 5 in New Great Eastern and Rs. 10 in Orientals. A dividend of Rs. 65 per share has been declared by the directors of the Alliance Spinning and Weaving Company.

COTTON.—The continued unfavourable accounts from the Home markets have led to a further decline in prices of Re. 1 to Rs. 2 per candy, and although in the morning little business was done, there has been a better feeling this afternoon, and moderate sales have been effected at the decline. The arrivals from up-country continue very heavy, yesterday's were 11,431 bales, which makes a total of 47,788 bales for five days. We quote:—

Good M. G. Broach	Rs. 238 per candy	Ready, F.P.
" "	" 236 "	May dely. "
" Dholleras	" 225 "	Ready. "
" "	" 224 "	May dely "
Good Oomrawuttee	" 222 "	Ready. "
Good S G Dharwar	" 220 "	May dely "

LINSEED in unchanged at Rs. 6-4 to Rs. 6-5 per cwt.

RAPESEED is still nominally quoted at Rs. 5-10 per cwt.

WHEAT.—With an abundant supply of food grains this market is entirely dependent upon an export demand, and until rates of Freight are lower this can only be on a very limited scale We still quote Rs. 35 per candy for White and Rs. 31 to Rs. 32 for Red.

FREIGHTS.—There is a steadier feeling again, and two more steamers are reported to have been fixed for Liverpool for May loading at 42s, 6d. per ton, which is the rate still current for this month's shipment, both via Cansl and Cape. For Havre the quotation is still 45s. per ton, for Trieste and Venice 50s. to 52s 6d. per ton (paid here at par Exchange), and Marseilles and Genoa 40s. per ton. The Rubattino steamers are reported full till August.

IMPORTS.—Piece Goods are very quiet as the continued unfavourable accounts from Manchester are telling on this market. Yarns are dull of sale, although in the bazaar prices are fairly maintained. Copper is again lower, the bazaar quotation being only Rs. 48 per cwt.

COALS unchanged.

FRIDAY, APRIL 23, 1880.

MR. GLADSTONE'S name is at last mentioned by Reuter in connection with the Premiership. At first it was telegraphed that Lord Granville would probably be entrusted with the formation of the new Cabinet. Then it was stated that it was expected that the Marquis of Hartington would be sent for by the Queen. And now we are informed that it is said that Lord Hartington will decline to form a Cabinet in order that Mr. Gladstone may be sent for. The fact that the names of two men of far less weight were mentioned before that of Mr. Gladstone on this occasion is very significant, and not less significant is that fact that in spite of the obvious desire in influential quarters to keep the victorious Liberal chief at arm's length, he is designated even by Lord Hartington himself as apparently the only possible Premier, still Lord Hartington has been sent for by Her Majesty. The logic of facts can hardly, however, be set aside. Mr. Gladstone as naturally takes the first place after the great Liberal success attained, mainly, if not solely, by his efforts and impassioned eloquence, as Mr. Disraeli became Prime Minister when the party which he had so laboriously disciplined conquered power under his auspices in 1874. Since Mr. Gladstone is now master of the situation, it is for the general interest that he should direct the new Cabinet as its responsible head rather than guide it, as he himself said, from behind, Power and responsibility should go together. If Court resentments or Whig jealousies succeed in keeping Mr. Gladstone out of office, they will be very effectually divorced, for the slighted statesman will be more powerful than ever, while responsibility, in the official sense, will, of course, weigh only on the man occupying the position rightfully his. Since we are to have a Liberal Government it is best that we should have the most capable and the most influential statesman of the party directing its counsels and directing them under a full sense of responsibility.

LAST month Sir David Wedderburn read before the East India Association an interesting paper on "Popular Representation in India." He thinks that the best way to represent public opinion in India would be by introducing elected members into the Legislative Councils. The change involved in such a measure would be by no means violent, as there are already nearly twenty native members in the Legislative Council of the Viceroy, and the Councils of Bengal, Bombay, and Madras. The only innovation would be that whereas the non-official members are now nominated by Government, they would, according to the scheme proposed, be wholly or in part elected by the community, and so more directly represent the Indian taxpayer. Such an arrangement would, Sir David Wedderburn thinks, be better than that India should send members to the British Parliament. The presence of Indian members in Westminster would be advantageous in many ways, but is rendered difficult by many practical obstacles.

The question discussed is part of the wider question of the future of the British Empire as it will be moulded by the increase of knowledge in India, and of population in Canada and Australasia. As the civil government of Rome, suitable as it was for a city with a small territory, had to be modified until it was almost unrecognisable when applied to the Roman Empire, so the British constitution having been framed to meet the requirements of the British Isles, can hardly expect to apply itself to the needs of a great world empire without adapting itself somehow or other to changing circumstances. The population of Australia is increasing so rapidly that it is certain that some of those now living will see the day when the inhabitants of that continent will exceed the population of the British Isles, and that in the more distant future, when it has reached the limit beyond which rapid increase is impossible, it will be ten times as great. No one contemplating this change can think that it is consistent with the permanence of the present relations between Great Britain and her colonies. At present the colonists are with good reason satisfied with their position. They have the full power of settling their own taxes and managing all their other affairs according to their pleasure. The taxpayers of the British Isles maintain a great navy, one of the most important functions of which is the protection of the

ATTACKS ON FORAGING PARTIES.

ALLAHABAD, APRIL 22.

The *Pioneer* publishes lengthy telegrams from its correspondent with the Maidan force, but there is nothing of much importance. Foraging parties are threatened in all directions, and villagers are as unfriendly as ever, carrying away all the stores of grain, &c., and cutting off water supply. While no serious opposition is met with, yet small detached parties of ours have had to retire before the enemy. A man who passed the force on the 19th riding into Kabul, said General Stewart was only two long marches, or forty miles, from Ghazni.

THE ALLEGED MASSACRES BY ABDUL RAHMAN.

Turkistan news has been brought by Taj Mohomed, lately a duffadar in the Amir's army, who left Tashkurgan twenty-five days ago. He made Kabul on the 19th. He says the recent stories about wholesale massacre in Abdul Rahman's army are untrue. Seven hundred Wardaks could not have been killed as there were only about one hundred in his army.

THE EX-GOVERNOR OF TURKISTAN.

General Hyder, ex-Governor of Turkistan, is now at Sherabad in Bokhara, kept as a prisoner by the Amir of Bokhara.

THE ATTACK ON THE DUBRAI POST.

SIMLA, APRIL 22.

KABUL, April 21.—The captured guns now *en route* to India reached Jagdalak on the 20th, and were to proceed to Peawan on the 21st.

Slight disturbances on the Lattabund—Jagdalak show signs of settling down.

From Kandahar further accounts of the attack on the Dubrai post show that the perpetrators of the outrage numbered 250 to 300, belonging mostly to the Durani tribes of Argheston, and lost 12 killed and 18 wounded. The ringleaders and others implicated are known. The affair has caused considerable stir in the neighbourhood but is not totally expected to indicate further disturbances.

THE police, who had taken the matter up, having, after consultation with the law officers of Government, decided to offer no evidence in the case against Mr. Bristed, Mr. Kemp's assistant, in which he was charged with doing a rash and negligent act under the penal section of the code, and so causing the death of the Chevelier Grondona, Mr. Bristed was formally discharged yesterday at the Police Court as well as his sureties, he having been on bail during the time the charge was pending.

DISPUTES regarding trade marks seem to be cropping up in Bombay oftener than is desirable. Some time ago we had suits in the High Court in connection with trade marks attached to piece-goods by rival firms. Yesterday, however, Mr. Justice Bayley was applied to and granted an injunction restraining Mr. John S Elmore from affixing upon bottles, cases, or packages of eau de cologne, imported into and sold by him in Bombay, any labels or words in colourable imitation of those of the well-known manufacturer, F. Maria Farina, of the city of Cologne, in Germany, and from selling any bottles, cases, &c., of eau de cologne having affixed to them any such label or mark. The plaintiff has also by his constituted attorney, Mr. Franz Heyer, of Bombay, filed a suit against Mr. Elmore for damages and for taking an account of the profits realised by him on the sale of eau de cologne by deceiving and misleading unwary customers to believe that it was the plaintiff's manufacture.

THE *Saturday Review* says of Mr. Maclean, *apropos* of his candidature, that "confiding in the thought that a man who can edit an Indian newspaper can do anything, he has ventured to break the solemn stillness of that home of indignant wisdom, the Elgin Burghs." "Indignant wisdom" was not seen to advantage under the emotion created by the intrusion.

IT has been finally settled, it is stated, that from next cold season, all troopships will go to and from Kurrachee, and no longer, as at present, to and from Bombay.

MR. W. M. P. COGHLAN, Judge and Session Judge of Tannah, is allowed furlough to Europe for five months from the 20th May next. Mr. H. M. Birdwood officiates during his absence.

THE appointment of Mr. C. F. Farran, Barrister-at-law, to be Clerk of the Crown, in succession to Mr. John Macpherson, who has resigned the appointment, is confirmed.

HER MAJESTY'S Flagship Euryalus, 1,288 tons, Captain E. D. King, sailed yesterday for Coast ports and Trincomali, with Admiral Gore-Jones, C. B., Naval Commander-in-Chief.

MR. G. C. TREVOR, Collector of Customs, Bombay, is allowed privilege leave of absence for one month and fourteen days from the 2nd proximo, Mr. H. E. Wright officiating in his absence.

THE Archbishop of Canterbury, replying to the Rev. H. W. Peploe, who wrote to His Grace on the subject of a public form of prayer for God's blessing on the elections, says that for many reasons the issue of such a prayer would not be desirable.

THE *Gujerat Mitra* is distressed on account of the state of the poor in the provinces of Kattywar. The province has had three indifferent seasons, and the people are living on grass and leaves; if another bad season comes, the province will be depopulated.

A HINDOO goods clerk and a Parsee station station master at Larkhana on the Indus Valley Railway have been charged with the offence of receiving illegal remuneration by charging higher rates than those fixed, and misappropriating the amount so realised in excess.

EGYPT is preparing for a war with Abyssinia, in which the latter country threatens to become the aggressor. King John has obtained a great victory over some rebel chiefs, and added their warrior subjects to his army. Egypt is fortifying two harbours in the Gulf of Aden.

MR. T. B. KIRKHAM, Educational Inspector, Central Division, is allowed furlough for fifteen months on medical certificate. Mr. E. Giles, Educational Inspector, N. E. Division, is appointed to act in the second grade as Educational Inspector, C. D., during his absence.

THE general result of the season report of the Presidency for the week ending 14 h instant are as follows:—Rabi harvest approaching completion. Slight rain in southern part of the Presidency. Cattle disease in two districts; small-pox in one and fever in three. Public health otherwise good.

THE *Times* takes a gloomy view of political morality. It says: "The result of the first elections will have more effect than anything else on those which are to follow. A first partial victory is something more than an omen of success along the whole line. Men like to feel that they are on the winning side, and they gain faith and confidence at every stroke that is struck for the side they incline to favour."

PRINCE LEOPOLD will sail direct to Canada on April 29th, in the Allan steam ship Sarmatian, the same vessel that conveyed the Princess Louise across the Atlantic. From Canada he will proceed through the Western States of America, but he will not (as recently contemplated) extend his tour to San Francisco. He will be attended by the Hon. Alexander Yorke, brother of the Earl of Hardwicke, and by Mr. Royle, his surgeon.

THE journals which cater for aristocratic small talk are rather hard up for gossip now that the Royal Family are on the Continent. One highfed wh chronicler, who takes monarchs and their families under his special protection, writes *apropos* of the Queen's arrival in Germany:—"Her Majesty and the Princess both looked well. The Queen was dressed in black, as usual; the dear Princess wore a dark short silk travelling dress." The allusion to the dear Princess is affectionately pathetic.

HIS EXCELLENCY the Governor in Council has directed his employment in the villages of the Man, Khatav, and Koregaon Talukas of the Satara District, of a police force in excess of the ordinary force quartered there, for the period of one year, and that the cost thereof be defrayed by a local rate charged on those villages. The step was deemed expedient in consequence of the conduct of the villagers, in harbouring and assisting dacoits and failing to apprize the authorities of their movements. The additional force will consist of three head and fifteen constables, at a total cost of Rs. 2,082 for the whole year.

A CORRESPONDENT of a Calcutta paper says:—Some of the officers coming from Afghanistan are deeply offended to find their services quite ignored by that discerning body, the British public. No one need flatter himself that if he does Indian Service it will count the same as picnicing in Abyssinia, scuttling into and out of Ashanteeland or making rabbit warrens in Zululand. The eyes of England are on her soldiers provided they fight anywhere else than in India. The other day two officers were with me. One had been through the whole of the first Afghan campaign, through the terrible march back to India, and through the next advance when he was wounded and invalided, quite broken down; the other was a young officer covered with honour for being shut up in Ekowe. The latter was quite a hero at the party we went to. All they said of the former was that he looked dreadfully sickly.

SAYS the *Indu Prakash*:—There was a large gathering of the members of the Elphinstone College Union on Saturday evening at the Cowasjee Jehanghier Buildings, Byculla, to bid farewell to Professor Wordsworth, who goes to Europe early in June next on one year's sick leave. The learned Professor in a short but highly touching address thanked the members of the Union for the reception they accorded to him, and said that although when a man was about to return to his native country, the sentiment of "home" prevailed over every other sentiment yet having spent the best period of his life in India, where he had many friends and acquaintances, it was only with feelings of pain that he would be soon leaving them. The Professor told his audience that he was not leaving India for good, but hoped to return after one year—a remark which was received with deafening cheers. Mr. Pherozeshah Merwanjee Mehta, who must have found some relief in the change from the excited debates of the Corporation to the humber but nobler proceedings of the Union, expressed the wish of Professor Wordsworth's friends that he would return to India with renewed vigour and health and called for three cheers for the Professor. The call was readily responded to by all those present.

ENGLISH ARTISTIC AND DRAMATIC NOTES.

Our London correspondent writes:—

Artists have been working hard during the last week or two to try and finish the pictures which they have on hand for the Academy and other exhibitions of the season; but the delay which was caused by the excessive gloom of last winter was so great that one or two of our leading artists have been compelled to abandon the attempt to complete their most important works for this season's exhibition. Owing to this and other causes, Mr. Long will send nothing but one or two portraits—one of them a portrait of Mr. Irving as Hamlet; Mr. G. D. Leslie is in a similar position; and Mr. Fildes and Mr. H. S. Marks will be entirely unrepresented. The President of the Academy, Sir Francis Leighton, sends no large work, and the five or six pictures he will exhibit are mostly single female figures. Mr. Millais also exhibits no important work, his principal contribution being a picture entitled "Cuckoo" two little girls listening in a wood to the notes of the herald of spring. Among Mr. Millais's portraits will be one of John Bright, which, it is to be hoped, will be more successful than Mr. Ouless's attempt last year. Mr. Poynter's contribution to the Academy exhibition will be "the visit of Venus to Esculapius," a picture with more repose in its composition than "Atalanta," or his last year's "Nausicaa." Mr. Orchardson's "Napoleon on board the Bellonophon" is highly spoken of, and will, it is said, be the most important work he has yet attempted. Mr. P. R. Morris will send a picture of similar dimensions to those of "Primière Communion," exhibited two years ago, and entitled "Sons of the Brave." It is a representation of visiting day at the Royal Military Asylum at Chelsea, and the boys with drums beating and colours flying are coming out of the portico of the asylum, around which stand their widowed mothers with their younger children. The sea painters will be represented by Mr. Colin Hunter, Mr. Maccallum, and Mr. Naish; landscape by Mr. Vicat Cole and Mr. Cecil Lawson; and there will also be pictures by Mr. Calderon, Mr. Pettie, Mr. Marcus Stone, Mr. Herkomer, Mr. Storey, and other old favourites. The largest picture in the Academy exhibition will be Mr. Val Prinsep's Proclamation of the Queen as Empress of India at the Delhi Durbar, on which he has been engaged for three years and a half. It is 30 feet long, and contains about 180 figures, the majority of which are portraits, taken by the artist in the tour which he has described in his volume on "Imperial India." Mrs Butler's picture of "The Defence of Rorke's Drift" will also be one of the attractions of the Exhibition.

In the theatrical world, Easter has been marked by the usual rush of novelties; but although some of these afford a good deal of amusement to holiday audiences, nothing likely to have any permanent merit has been produced. A new comedy brought out at the Vaudeville under the title of "Cobwebs," by Mr. Charles Wills, (a new author, who must not be confounded with Mr. W. G. Wills) is a very weak affair, and will certainly not turn the run of ill luck which this theatre has had since the withdrawal of "Our Boys." At the Globe "Les Cloches de Corneville," which had a run almost equal to that of "Our Boys," has given place to "The Naval Cadet," an adaptation of a comic opera by Genée, a German composer. The piece was first produced at Vienna two or three years ago, and has attained some popularity in America under the title of "The Royal Middy." The story is connected with the adventures of a French nourrice in the 17th century who follows a Portuguese lover to Lisbon, where she finds that her faithless swain is in love with the Queen. The actress assumes the disguise of a naval cadet, and an amusing and complicated series of entanglements ensue which end finally in an orchodox fashion, the Queen pairing off with her young gallant and the actress with a wealthy Brazilian. The music is light and lively, and as the piece is well mounted, it may have a fair run. At the Gaiety the Easter entertainment is an "absurdity" called "Le Voyage en Suisse," which is simply a reduction of the comic annual compounded of a band of pantomimists called the Hanlon Lees, who have been performing for some years with much success in Paris at the Folies-Bergère and the Variété. The whole performance is in a spirit of the most reckless fun. The five pantomimists make their first appearance on an omnibus which half-way across the stage is capsized and smashed, the occupants being precipitated from the roof in a most ludicrous fashion. There is a scene in the interior of a sleeping car, in which the party indulge in some riotous fun, the scene ending in an explosion by which the car is shattered to pieces, the passengers having previously made their escape. Another diverting scene is a supper at the Rigi Kulm Hotel, where plates are smashed, hot soup and scalding coffee thrown over the guests, where a French general plays conjuring tricks with oranges and plates, and where a double-barrelled gun is let off into a bottle of champagne, and various other grotesque incidents occur. In downright rollicking fun there has been nothing like this entertainment on the London stage for some time. The regular Gaiety Company has gone to the Olympic, where they are playing in "Little Emily," the late Mr. Halliday's adaptation of "David Copperfield," and in "Little Doctor Faust." Drury Lane has been reopened with an entertainment consisting of a mixture of melodrama and opera bouffe. The first piece is a dramatic version of "Lady Audley's Secret," and this is followed by "Madame Angot" which is put on the stage on a scale never before attempted, as many as 500 supernumeraries being on the stage in the garden scene. The legitimate drama, thus driven from its old abode, continues to flourish at the Lyceum, where "The Merchant of Venice" is as attractive as ever, and at the Imperial, where "As you like It" draws crowded afternoon audiences. Mr. Tom Taylor has possession of two theatres—the St. James, with "Still waters run Deep," and Sadler's Wells, with "Gluncarty;" and most of the other houses maintain the programmes which have proved attractive for some time past.

GOTHIC ARCHITECTURE AND INDIAN ART.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Two or three good-na ured friends have sent me a paragraph from your paper which concludes thus:—"Mr. Kipling is one of the greatest offenders in the way of bastardizing Oriental Art with European improvements." My offence lies, of course, in the work I did in Bombay, which I admit, without the least hesitation, is open to the very serious objection that may be taken to the whole system of imported architecture in your beautiful city. The buildings on which I wrought were all of European, mostly of Gothic design. My share in them was of the humblest—the style of architecture and character of the ornament being prescribed by the architect, we carved foliage, animals, and figures in cast iron cornice or pinnacle. The details thus worked out by my pupils were at least studied from the plants, creatures, and people of the country, but the buildings themselves were as essentially foreign importations as if they had been unpacked at the Prince's Dock. If, then, I am one of the greatest offenders in this matter, what is to be said of the skilful architects for whom I had the honour to work;—of General Wilkins, Colonel Fuller, Messrs. Paris, Emerson, Roger Smith, Rienzi G. Watson, Campbell, Stevens, Molecey, and others? Or to go further back, what is to be said of those who, ignoring entirely the existence of a style of architecture indigenous to the country, ordained that new Bombay should be a city of European imitations, who planted Grecian temples in the Victoria Gardens and Lombardic palaces in Chinchpoogly? If there is any offence, surely these are the offenders. My personal reputation is one of those small matters that may very well be left to take care of themselves, and I am not careful to defend it at any length. Will you allow me to say a word as to a principle too often overlooked in discussing the deterioration of Indian Art?

Few will care to insist that there are no special reasons why so representative a city as Bombay should choose her architecture as she has chosen her population, from the four quarters of the globe. One is as motley as the other, and you are justly proud of both. But it is precisely through architecture—the mother art of all the rest—that style is most completely expressed, and the "bastardizing" influence so pathetically mourned of late is most powerfully exercised. The phonetic arts are attracted to and governed by the progress of architecture as the satellites of a planet are ruled by the orb round which they revolve. The English in India have systematically neglected Oriental architecture, and our Public Works Department by no means alone in its blindness to the beauties of an art which cured the learned historian of architecture of his predilection for Gothic. And now when a great change has come over the European estimate of the art of the East, and we fain would repair a bygone error of judgment, many of us are prone to look in a shortsighted way at this or that detail of carpet, copper or ivory, satisfied if we can find a person sufficiently obscure to be safely blamed, while we shrink from the conclusion to which a wider outlook and a more sincere conviction must inevitably lead.

I admit that with your striking sea front of comparable size, it would be a forlorn hope to preach Indian architecture in Bombay, but I am persuaded that till this art is more appreciatively studied there is but little chance of any vital renaissance of the attendant arts in this country.—I am, &c.

ACCOMMODATION FOR PASSENGERS ON THE B. B. AND C. I. RAILWAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR—Is there really no limit to the number of passengers in a second class compartment of the B. B. and C. I. Railway? The station officials would seem to be under the impression that there was none, judging from the unconcern with which they let passengers find themselves room, wherever they can. The result is that, after the right number have got into a compartment, one tries to squeeze himself into a place because he is a "*small one*," another makes himself comfortable on the lap of an obliging friend, or perhaps a too pliant victim, and a couple, if not more, stand right in the doorway. Trying enough at all times this state of matters is simply unbearable in this hot weather. As a pass-holder, I have the misfortune to travel backwards and forwards every day between Church Gate and Grant Road, and I can say from personal observation that both the up and down trains, especially the 5-30 and 6 p.m., are shamefully overcrowded.

Again, the way in which the passengers by the morning trains have to force their way out, is objectionable to a degree, especially so in the case of lady passengers. Of 4 small openings, all of which together are not wide enough for the stream which pours out every morning, only two are opened, and through these the whole of the passengers—first, second, and third class pass-holders, ticket-holders and all—sufficiently numerous in themselves to constitute a good-sized village have to jostle for exit! In all this promiscuous mass there must be not a few who belong to the "*great unwashed*" and our misery and suffering in consequence, while we are scrambling for the way out may well be conceived. And as if in mockery of our vigorous efforts through the dense crowd, two pompous boards, perched up so high that they really seem intended more for ornament than for use, indicate the opening through which ordinary passengers must pass, as distinct from that reserved for us privileged pass-holders!

Really, Sir, the B.B. Railway owe it to the public and to the pass-holders who patronise them in such numbers, to make travelling on the line as comfortable as possible, and I trust my complaint may meet with prompt redress.

THE OFFICERING OF THE BOMBAY N. I. REGIMENTS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Thirteen of the Bombay native infantry regiments have lately been detailed for field service in Afghanistan. With three exceptions and with untold difficulty, these regiments have each been completed to their full establishment of seven European officers.

A reference to the Army List discloses the fact that the remaining seventeen regiments of the Bombay army are reduced to an average of five and-a-half officers for duty with each regiment, as appears from the annexed table:—

With 4 officers each, 2, 6, 20, 22, 26 27.
With 5 officers each, 7, 8, 11, 15, 17, 18.
With 6 officers each, 12, 13, 14, 21, 25.

Figures are wonderfully hard and stubborn things, so will those responsible for the organisation of the Indian army say from what source they propose to replace even ordinary casualties from sickness in the thirteen regiments on service, for the chances of actual fighting may fortunately be now disregarded.

There are at present about 20 absentees (officers of native regiments on medical certificate in England) in the whole Bombay army. We will suppose fifteen of these available and all despatched for duty with the service regiments, within the next three months.

We will further suppose that all regiments *not* ordered for service be reduced to four European officers; surplus officers being sent to join the service regiments; this will give us about fifteen more.

A dozen young sub-lieutenants may perhaps be scraped together within the next three months from the West India regiments, the Marines (both Horse and Foot), and the Militia and shipped off at once to the front to command the wondering Jack Sepoy, making a total reserve of say forty officers to feed thirteen regiments on active service. Is it intended as a burlesque?

"Do I dream; do I doubt!!
"Is things what they seem, or is visions about."!!

THE HYDERABAD CONTINGENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—We do things quite differently nowadays to what was done sixty years ago. Quite an anomaly exists in the Hyderabad Contingent at the present time. A lieutenant is officiating as adjutant while a captain is the second in command! It happens in this way: a wing of an infantry regiment in command of a captain was ordered on "detachment duty." With the head quarters and "right wing" were two officers, the colonel commanding and a lieutenant as adjutant. The commandant proceeds on privilege leave and hands over the command of the regiment to the next senior officer, the young lieutenant! The captain—who is actually the *next senior*—is away on "detachment duty," and of course has to send all his detachment returns, reports, indents, &c., to the "officer commanding the regiment," who is no other but the young lieutenant, who is also wing commander, adjutant and quarter master! More power to his elbow I say; but is this the fruite of the Staff Corps system, and is it right?

In another infantry corps, a colonel is commandant, and a lieutenant colonel is the second in command, *bus*; these two field officers have to do all the multifarious duties in the regiment. Comparison is odious. What will your "Subaltern" say to this?

The deaths from diseases to the respiratory system, diarrhœa and dysentery were last week 21, 4, and 15 respectively, as compared with 35, 22, and 26 last year. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years the percentages of mortality are unreliable.

THE JIVRAJ BALOO SPINNING AND WEAVING COMPANY.—An ordinary general meeting of the shareholders of the company was held at its registered office, No. 70, Bazar Gate Street, yesterday afternoon, Mr. Raghunath Narayen Khote, the chairman of the board of directors, presiding. The annual report and the audited balance sheet, together with an abstract of profit and loss account, made up for the year ending 31st December 1879, were adopted and passed. The balance sheet shows that the company has made a net profit during the year under report of Rs. 67,454-11-10, out of which the directors have set apart a sum of Rs. 22,650 for the deterioration fund and a further sum of Rs. 13 475 for the insurance fund, making in all Rs. 36,125, leaving a balance of Rs. 31,329-11-10. This sum, together with a balance of Rs. 9,770 10-9, brought forward from the account of the previous year, makes up an aggregate amount of Rs. 41,100-6-7 to the credit of the profit and loss account. A dividend at Rs. 40 per share and Rs. 10 per quarter share to be paid on and after the 26th instant to the shareholders, was declared. Messrs. Cursondass Vaiubdass and Morarjee Toolsidass who retired by rotation were re-elected directors. Messrs. Gungadass Kishoredass and Ardaseer Cursetjee Furdoonjee were appointed auditors, their remuneration to be Rs. 150 each. A vote of thanks was tendered to the chairman and directors and to Shett Dwarkadass Vussonjee, the agent of the company in particular, for the zeal and ability with which they had managed the affairs of the company.

MURDER OF A NATIVE WOMAN AT GHORPOORE.—The dead body of a native woman was found on Thursday morning last at Ghorpoore rolled up in a *gurree* on the road leading to the officers' mess house of H. M.'s 78th Highlanders. The unfortunate woman was evidently murdered on Tuesday night and the murderer or murderers must have thrown the corpse there during the night; she had some ornaments on her person of the value of a few rupees. Up to the present time she was not identified by any one, although the police gave notice of the murder by beat of tom tom throughout the cantonment limits. The corpse was removed to the Sassoon Hospital, but the face is quite disfigured from the injuries received. It strikes us forcibly that the woman was a stranger in Poona and was murdered in the neighbourhood of the village of Ghorpoore. It is to be hoped, however, the police will trace the murderer or murderers and bring them to condign punishment.—*Poona Observer.*

THE GRONDONA POISONING CASE.

THIS case, in which Mr. John Bristed, chief assistant to Messrs. Kemp and Co. in the dispensing department, was charged under the penal section of the code, of having by a rash and negligent act caused the death of the Chevalier Grondona, in causing to be made up a wrong solution of morphia in place of the water solution prescribed, was called on before the Senior Magistrate yesterday. The defendant, together with Mr. Kemp, was present.

His Worship—In the case against John Bristed I am now informed by Mr. Superintendent Crummy that the Government, after consulting with its law officers, propose to offer no evidence against him. That being so, it becomes my duty to discharge you, Mr. Bristed, and of course to discharge your sureties also.

A PAINFUL OCCURRENCE.

A SHOCKING and very painful affair has taken place in the English Hotel, Hornby Row. Yesterday afternoon "Colonel Issac Austin," a member of Dave Carson's Variety Troupe, known as the American sharpshooter, made an attempt on his life, which but for prompt medical aid, would have ended fatally. Colonel Austin, it is stated, was a man of very abstemious habits, and rarely drank spirits. Yesterday, however, he appears to been prevailed upon to indulge in a little, which seemed to have affected him in a peculiar way. After talking with his friends downstairs, he went up to his room, between 4 and 5 o'clock, and a remark or two made by his wife, stated upon him so, that he suddenly seized a razor, unfortunately lying too conveniently near, and drew it across his throat. It was the work of a moment and he fell heavily to the ground, off his chair, bleedingly profusely. Mrs Austin rushed out calling for assistance, which luckily was at hand. Dr. Cunha, the resident surgeon, lived in the premises, and instantly went up. He found that Mr. Austin had drawn the razor across in an upward direction, severing a main artery, but leaving the windpipe uninjured. The hemorrhage, however, was copious and the sufferer was sinking with exhaustion from loss of blood, but every available means was resorted to in order to stop the bleeding Dr. de Cunha who resides close to the hotel was sent for, and Drs. Blanc and Cody also came in soon after. The bleeding was eventually stopped and the wound sewed up, while Mr. Austin was in an unconscious state He recovered his senses after a time, and expressed his regret at what he had done; asked very kindly after his wife, and enquired whether he would live With perfect quiet and the avoidance of anything that might tend to excite him, hopes are entertained of his recovery, but he was not pronounced out of danger at 10 o'clock last night. Up to the time of this going to press he was sensible and progressing favourably. Colonel Austin is an elderly man, but of a strong constitution wiry and muscular, and, as we have mentioned, almost a teetotaller in habits. His skill and adroitness as a sharpshooter is said to be wonderful, and this unfortunate occurrence will possibly deprive Dave Carson of one of his great attractions during his season here.

THE UNIVERSITY OF BOMBAY.

A MEETING of the Senate was held in the Sir Cowasjee Jehanghier Hall of the University on Monday the 19th April, at 5-15 P. M., under the presidency of the Honourable Mr. Justice West, C.S., M.A., F.R.G.S., Vice-Chancellor.

The Minutes of the last meeting were read and confirmed.

It was proposed by Mr. Chambers and seconded by Mr. Bhandarkar that the offer of the widow of the late Mr. Veeseykerao Jugonnathji Sunkersett to sell the Chinchpogli property and hand over the proceeds in full satisfaction of any monies due under the Jugonnath Sunkersett Sanskrit Scholarships endowment be accepted.

It was proposed as an amendment by the Honourable Mr. Latham and seconded by Mr. Nanabhai Haridas that the University do relinquish its claim upon any monies still due under the Jugonnath Sunkersett Sanskrit Scholarships endowment; and that the Syndicate be authorised to convert the present Jugonnath Sunkersett Sanskrit Scholarships into Scholarships of such value as the Syndicate shall deem advisable, and the interest of the Rs. 30,000 now in the hands of the University on account of the endowment may allow.

The amendment was put to the vote and carried unanimously.

It was proposed by Mr. Fox and seconded by Mr. Bhandarkar that the examination now called the "First Examination in Arts" be in future styled "The Previous Examination."

It was proposed as an amendment by Mr. Jardine that the three examinations for the degrees of B.A. and B.Sc. be respectively styled the Previous, the Intermediate and the Final.

This amendment was not seconded.

The original proposition was then put to the vote and carried unanimously.

CARRE'S IMPROVED ICE-MACHINE.
WITH THE NEW CONGELATOR FOR PRODUCING BLOCK ICE, TO BE HAD ONLY FROM
S. ROSE & CO., BOMBAY.
ICE IN FOUR MINUTES.

CARRE'S PNEUMATIC ICE-MACHINE.
WITH DISTRICTOR AND CONGELATOR ATTACHED.
The only machine suitable for Domestic use; Cheap, Cleanly, and Easy to work; always ready for use, and never gets out of order.
Full particulars of the NEW CONGELATOR can be had on application to S. Rose & Co.
Personal inspection of the new apparatus and its accessories is requested, and full practical instructions for using the Machine will be given to the agents or to the servants of purchasers.
The mode of producing Ice is by means of a Pneumatic Machine; the air in the Decanter or Vase is exhausted by the action of the air-pump, and the moisture arising from rapid evaporation, absorbed by the Sulphuric Acid contained in the Cylinder B, and intense cold in the Decanter or Vase, is the result of reducing the water to Ice.
For use in Up-country Stations, Messes, Hotels, Hospitals, and on board Ship, these Machines will be found invaluable; and their portability renders them most serviceable for Camp use. Within fifteen minutes the Machine can be fitted together, charged with acid, and the water a 85 deg. Fahrenheit can be reduced to freezing point.
An Illustrated Pamphlet, containing full directions for use, accompanies each Machine.
Apparatus for operating on one DECANTER or VASE with NEW CONGELATOR and ACCESSORIES, complete. Net Cash Rs. 190.
Ditto, ditto, on Two DECANTERS or VASES with NEW CONGELATOR and ACCESSORIES, complete. Net Cash Rs. 275.
